

Comet Tails (Which Way?)

for cello and vibraphone

Jeremy Podgursky

♩=66 Spacious; ethereal; expansive; ephemeral

Medium yarn mallets, motor on, medium low speed

Vibraphone

(Ossia is sounding pitch; sempre)

Violoncello

sul tasto; arco is always on the string

II. *pp* III. *mp* I. *mp* sim. sheepish; bashful (sul tasto) *pp*

5

Vc. *p* *mp* *mf*

ord.

Vc. *mp* *mp* *mp* *mp* *mp*

N.B. *mp* *mp* *mp* *mp* *mp*

sim. *mp* *mp* *mp* *mp* *mp*

ord.

N.B. - this accidental suggests the node somewhere around the tritone to get the resultant pitch at two octaves + a flat m7. This partial is naturally flat and its intonation is to be fully embraced! The resultant pitch in the ossia staff has been given a microtonal accidental as well.

Vib. 

Vc. 

88 = c. 66 Freely; Tempo ad lib; sempre

N.B. - m . 88 marks the beginning of a new temporal notation that lasts until the end of the piece. Rhythms indicate approximate durations that are proportional to themselves, but are to be played freely at the original tempo of the piece. Because each player plays alone from this point on (until the last gestures), the performers are to cue each other's entrances. The purpose of this notation is an attempt to create a free, expansive set of gestures that are removed from any sense of steady tempo. The chords in the vibes that have an arpeggiation sign next to them have been notated as vertical sonorities instead of arpeggios. This is to ensure that all of the chords are arpeggiated at free and varying rates (re: I want them to feel spontaneous and organic!). They are to be arpeggiated over the course of the duration of chords notated.

N.B.- the three different fermatas used for the remainder of the piece represent different approximate durations. The square fermata is "lunga", and should be held c.4-6". The Star Trek fermata is medium length, and should be held for 2-3". The commonplace and boring crescent-shaped fermata is the runt of the litter at 1-2". Please interpret these durations as organically and elastically as possible.
